Hot, itchy, and ill-fitting wigs are a thing of the past. Today's wig feels and moves like natural hair...that is, when it's made by ESPY. Store bought wigs often do not fit properly or are made with poor quality hair. We specialize in custom wigs made to order for each individual client. Together we choose the density (number of hairs per square inch) to help create a natural-looking hairstyle. You'll have a great wig you can rely on when you need to look your very best. # SERVICES

## Custom Colors

If you desire a color that we do not carry in stock, we can custom color match any sample you provide (allow 48 hours). A one color process means we will expertly create one shade. Two colors means we will create one base shade then add highlights (or lowlights). Never worry about your hair losing its softness or luster when professionally colored by ESPY.

## Perming

ESPY carries natural curly hair in stock. If you want a curl pattern that is tighter than our naturally curly hair a custom perm may be required. With a custom perm, we can achieve several different curl patterns ranging from afro tight curls to silky loose ringlets.

## Weft repair/recondition

Bring in your old wefted hair and we will wash, condition and reattach the weft. What was once old can be refurbished. Good as new.
